Education

Computer Engineering

Bachelor of Science

Minors in Statistics & Computer Science

University of the Pacific

May 2016

Certifications

AWS	AI Practitioner 81%	Dec 2024
AWS	Solutions Architect Professional 80% (originally in 2021)	Sep 2024
Kubernetes	Certified Kubernetes Application Developer 96%	Aug 2024
AWS	Security Specialty 80%	May 2024
Kubernetes	Certified Kubernetes Administrator 75%	Feb 2024
Python	PCEP-31-02 Associate Programmer 80%	Jan 2024
GCP	Google Cloud Digital Leader	Nov 2023
Python	PCAP-30-02 Entry Level Programmer 83%	Oct 2023
AWS	DevOps Engineer Professional 80%	Sep 2023
Hashicorp	Terraform Associate 87%	Apr 2023
AWS	Advanced Networking Specialty 76%	Jun 2022
AWS	Database Specialty Specialty 83%	Mar 2022
AWS	SysOps Associate 89% (renewed in 2023)	Sep 2020
AWS	Developer Associate 92% (renewed in 2023)	Feb 2020
AWS	Solutions Architect Associate 91% (renewed in 2024)	Dec 2019
LPIC	Linux Systems Administrator 82%	Aug 2019

Awards

Innovators and Disruptors	Chosen by upper management to help special projects	2024
Best Performance 1st	Nominated by peers, out of 1,500 technology team members	2023
Team member of the month	Systems support department of 100+ team members	2021
Team member of the month	Systems support department of 100+ team members	2020
Best Execution 1st	Nominated by peers, out of 3,000 technology team members	2019
Best Execution 2nd	Nominated by peers, out of 2,500 technology team members	2018

Technical skills

Programming Languages	Python , Bash, Go, C#, LaTeX, SQL , OpenEdge
Saas	Grafana , Dynatrace, AWS, CircleCi, Splunk, Pagerduty
Tools	Git, Neovim, Docker, Kubernetes, linux

Work Experience

Site Reliability Engineer

Rocket Mortgage

Sep 2022 - Present

Jacksonville, FL

- AWS cost savings: turning off development environments during off hours, proper sizing of containers and databases, implementing autoscaling, turning off unnecessary resources
- Security and Compliance fixes: AMI images, Software updates, network issue, encryption in transit and at rest, least privilege IAM policies and networking
- Created and updated many Terraform modules: VPC, lambda, ECS, ALB, API Gateway
- Automated creation of Service Level Agreements(SLA) using python for monitoring app stability for hundreds of apps on errors and latency

- Presented often to technology teams/streams on backing out code, debugging, Redis, cost savings, IAM permissions, scripting best practices, incident management
- Created RPA automation using Dynatrace Synthetic monitoring and AWS Canary
- Part of many committees and virtual teams: Architecture Design, Infrastructure as Code, Engineering leaders, Community of practice

Systems Engineer - SRE Team

Dec 2021 - Sep 2022

Rocket Mortgage

Jacksonville, FL

- Migrate code and database from on-prem to ECS or Kubernetes for reliability while removing down time or mitigating it
- CI/CD improvements by implementing caching, additional testing and building repeatable patterns to improve maintainability
- Network trouble shooting with: load balancers, route53, certificates, route tables, vpc flow logs, apigw detailed logging
- Design new solutions using AWS such as: eventing, cross account, Document management, lambda hyperplane, deployment strategies
- Many software prototype reviews: Auth0, Dynatrace, Datadog, security applications, CICD solutions, UIPath
- continually update and maintain our Terraform for aws changes, security issue, ease of use
- Document fixes, incident responses, upgrade planes for developers such as dotnet6 to dotnet8, zero down time RDS upgrades, ECS to k8 migrations, cross account migrations

Senior Software Engineer - Performance Engineering

Oct 2019 - Dec 2021

Rocket Mortgage

Detroit, MI

- Create a Microsoft Teams bot to automate common questions in Azure
- Implemented scaling solutions for our legacy software, by threading back-end process
- Optimizing code by implementing OO, out sourcing calls to c code, and caching business logic
- Wrote a custom implementation of Sonarqube so code coverage can be reported
- Created a general alerting process by calculating the STD of errors and latency

Software Engineer

Jan 2017 - Oct 2019

Rocket Mortgage

Detroit, MI

- Created Monitoring solutions for legacy code
- Multi-threaded the compile process to speed up deployments and fix dependency issues
- virtual teams: Architecture, Code Compliance, OpenEdge Drivers

Software Developer

Sep 2016 - Jan 2017

Rocket Mortgage

Detroit, MI

- Did manual updates on loans with SQL
- Built virtual environments for testing
- Respond to Tech Incidents for debugging

Waiter

Jul 2012 - Jul 2014

Thai Spices

Lodi, CA

- Waited on tables, bust tables, answered phones

Sergeant

Jun 2007 - Jun 2012

United States Marine Corps

New River, NC

- Crew Chief on the MV-22 Osprey
- Flight Instructor
- MV-22 Osprey Maintainer
